

HACKATHON 2026 • FUTURE OF WORK

Jinder.

Where skills meet their match.

Skills-first job matching for Australian ICT.

PRESENTED BY **Team Excelerate**

THE PROBLEM

The talent is here. The filters are broken.

680,582

international students in Australia

69%

of employers report a tech skills shortage

**Bias up front**

Name, photo and age shown first

**Keyword filtering**

Overseas job titles get rejected silently

**No feedback**

No path to close the skill gap

**Black-box AI**

Rankings can't be reproduced or explained

THE JINDER WAY

Every pain, answered.

THE PROBLEM

✗ **Bias up front**
Name, photo and age shown first

✗ **Keyword filtering**
Overseas job titles get rejected

✗ **No feedback**
No path to close the skill gap

✗ **Black-box AI**
Rankings can't be explained

JINDER'S FIX

✓ **Skills-only profiles**
Employers see skills, never identity. Names shared only when talent agrees.

✓ **Skill translation**
Overseas experience mapped to Australian roles and skills.

✓ **A path to every job**
See what's missing and how many months it takes to close.

✓ **Explainable matching**
Per-skill reasons. Same input, same score. A human always decides.

ANZSCO taxonomy
172 skills • 53 roles

F-02 Gap & readiness

F-01 Per-skill match
Human decides

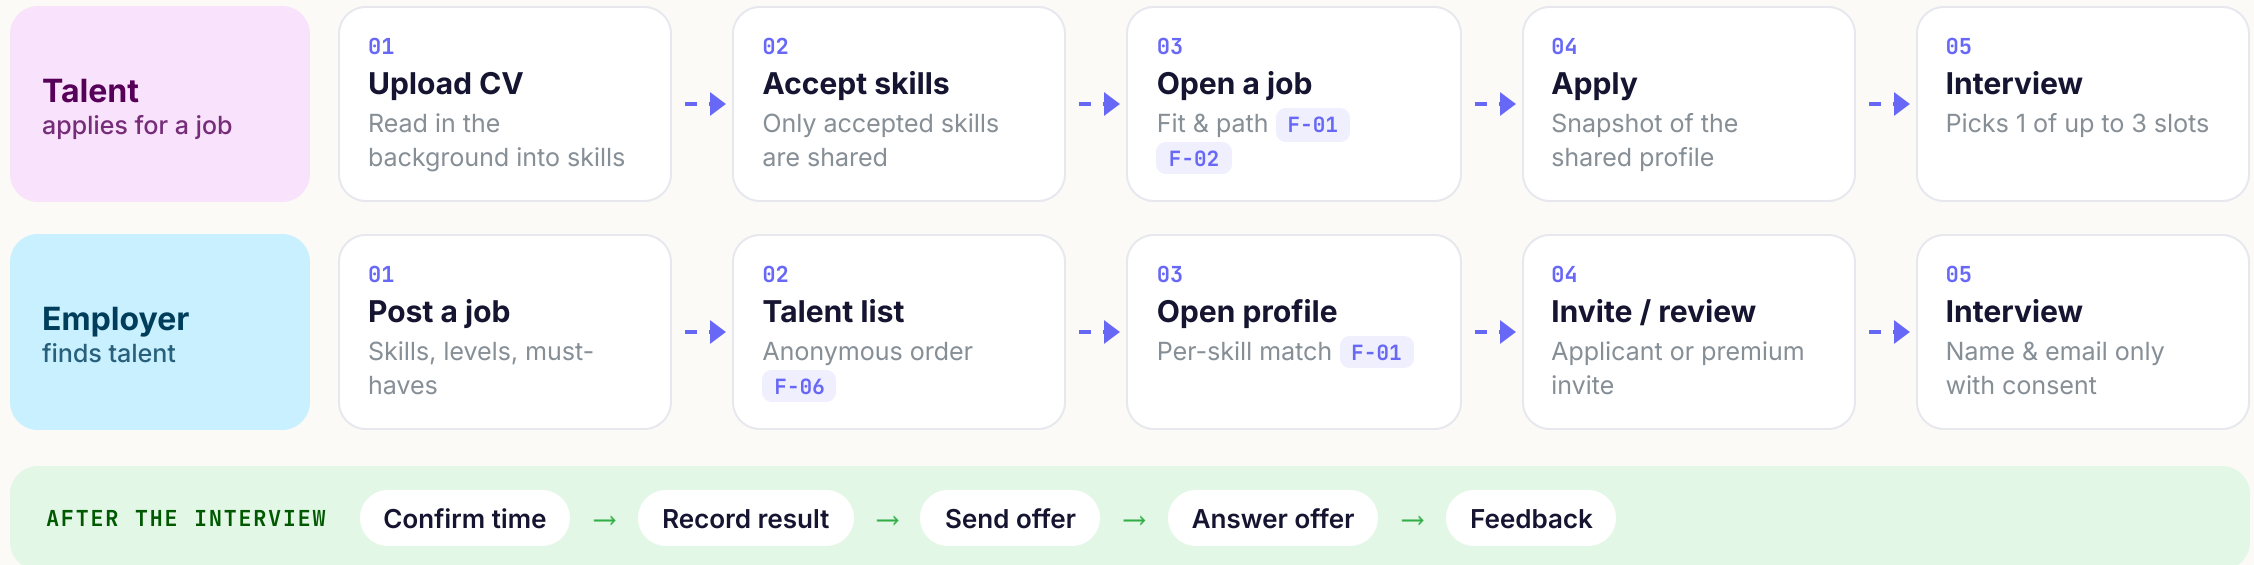

TALENT GETS A fair, explained chance

EMPLOYERS GET A clear, skills-ranked shortlist

One process. Zero dependencies.

How data flows.

Facts are stored, scores are not. Every step writes history and a notification.

Data model: 22 tables, 6 groups.

[Open admin console →](#)

Live tables · traffic · read-only SQL

Privacy: employers see talent only through the shared-profile allowlist — no name, email, country or CV.

INTELLIGENCE ENGINE

Six formulas, one job each.

[Try the formulas →](#)

Deterministic · explainable · < 5 ms

F-01

Skill match & fit

How well your skills, levels and years cover a job, from 0 to 100.

Talent Match badge on every job

F-02

Skill gap & readiness

Which skills are missing, how serious each gap is and months to close.

Talent "Your path to this job"

F-03

Job-to-job comparison

How close two jobs are on skills, pay, place and level.

Talent Similar jobs · compare

F-04

Candidate benchmarking

Five merit areas on a radar. No total score, never ranks people.

Employer Compare 2–5 profiles

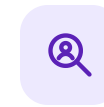

F-05

Talent job feed

Orders your feed by capability, pay upside, location and freshness.

Talent Job feed order

F-06

Employer talent search

Orders anonymous profiles by requirement fit, seniority and evidence.

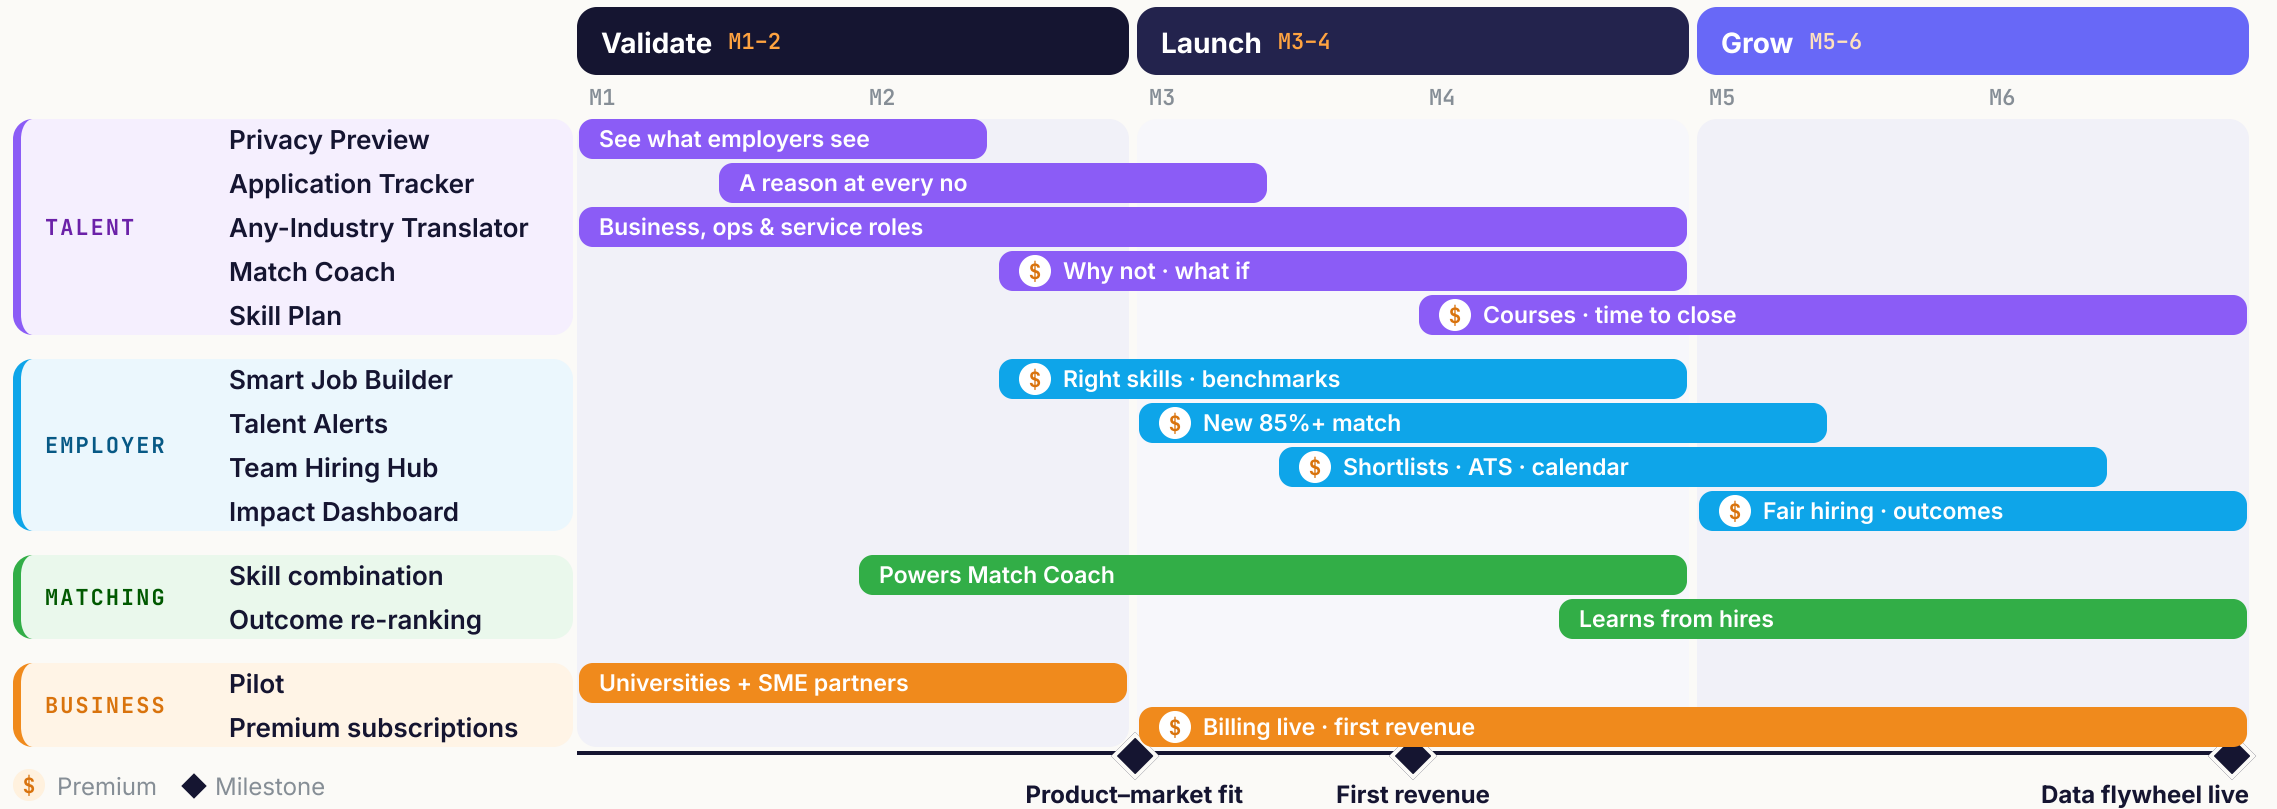

Employer Talent list order
